BOSCO TECH-WARZ

No. of participants: 6(2+2+2)

Classes: 9-12

Duration: 4 hours

<u>Rules and regulations:</u>

Participants will have to bring their own laptops. The event will consist of three sub events:

a) Webpage Designing (1.5 Hours)
b) Coding (1.5 Hours)
c) Rapid Fire IT Quiz (1 hour)

1. For the first event, the participants design a webpage on a given theme which will be given on the spot for which the media files will be supplied by the host school.
2. The second round will consist of coding for a certain problem given on the spot by the host school.
3. The language for coding will be Java/C++/Python.
4. Downloaded codes will not be allowed.
5. The third round is the rapid fire IT Quiz in which the participants will have a single round Quiz on IT.
6. The participants of the three sub-events should not be the same.
7. Decision of the Quiz Master will be final in the third round.
8. Each of the sub-events will have individual points and the final point of each school will be the sum total of the points earned in the three sub-events. The school with maximum points will be the winner and so on.
